The image shows a laptop screen displaying a software application for sales planning. The interface is in Croatian. At the top, there's a navigation bar with tabs: 'Zadaci', 'Planiranje', 'Analiza', and 'Ispis'. Below this, there's a header section with 'Naziv Plan Prodaje 2020' and various filters. The main area is a large table with columns for months (January, February, March, April) and rows for various sales representatives (e.g., INDIJANSKI ŠATOR 1, JUICE - BANANA). The table contains numerical data for planned and realized sales, along with calculated indices. A sidebar on the left contains filters and selection options. The bottom of the screen shows the laptop's keyboard.
